AURUKUN

FISHING CHARTERS

FISH THE REMOTE RIVERS,
LAGOONS, BEACHES,
WETLANDS AND REEFS
OF CAPE YORK

M.V. PIKKUW

Aurukun is located at the junction of three pristine rivers – the Archer, the Watson and the Ward. Together with other systems lying further south (the Kirk and the Love Rivers), these wetland areas are massive.

Outside the rivers is a blue water wonder land, with long beaches, interspersed with rocky outcrops and a maze of in-shore reefs.

From the keenest, most discerning fly fisherman, the avid lure-caster, to those who just want to relax and catch a few fish, a customised charter aboard this new sport fishing platform is for you.

Targeted species during charters includes Barramundi, Blue Salmon, Threadfin Salmon, Mangrove Jack, Fingermark, Queenfish, Trevally, Grunter, Bream, Saratoga, Tarpon, Sooty Grunter, Spanish Mackerel, Grey Mackerel, Red Emperor, Coral Trout, and many more.

So – whether you are chasing a barramundi fix, or want to tussle with the huge range of estuary species, blue water speedsters, or tasty reef fish, the opportunities are limitless. And don't forget the mud crabs!

We provide fully guided fishing adventures, taking you to places that others can't access, including a range of on-shore fishing options.
